Safer than Salt®

PREMIUM ICE MELTER

with CI-56™, a Corrosion Inhibitor

Reduces corrosion!

This extension of the Safer than Salt® product line is a proprietary formulation with CI-56™, a Corrosion Inhibitor. **Tests have proven that this product will melt more than twice as much snow and ice as most other melters in the marketplace.** It works faster and at temperatures when many other products have stopped working.

Safer than Salt® with CI-56™, a Corrosion Inhibitor, is formulated to be seen when used. Most "white" ice melt products disappear into snow and ice. Users tend to over-apply, or worse, under-apply product because they can't see where it lands. Additionally, in today's litigation-driven society, this product affords users positive proof that an ice melter is in use.

Because Safer than Salt® with CI-56™, a Corrosion Inhibitor, melts more effectively than other products, a smaller quantity is needed to remove snow and ice, minimizing the environmental impact on grounds and vegetation.

Safety Green Coating assures visible, complete coverage
